Fillmore, UT 84631

Dear Mr. Anderson:

We have completed our Environmental Assessment Review of your plan of operations dated February 13, 1991. Your plan has been approved contingent upon the acceptance of a reclamation bond by the Utah Division of Oil, Gas & Mining and upon your acceptance of the following mitigations:

1. All equipment and facilities will be removed from the mine area at the end of mine life or as soon as practical if no longer needed for mine operation. Reclamation activities should be conducted contemporaneously with mining to the greatest extent that this is practical. No final slope shall exceed 3 horizontal:1 vertical. The area will be seeded with a mix approved by the Authorized Officer as part of reclamation.
2. Should mining operations enter a temporary shutdown or suspension, and a raptor build a nest in the mine area during that period of suspension, then resumption of mining within $\frac{1}{4}$ mile of that nest will not be allowed during the period from March 1 through June 30 to prevent nest abandonment.
4. No waste oil or other petroleum products will be disposed of on the project area. All waste oil will be properly contained and removed to an approved waste oil disposal site.
5. Human waste will be contained in a chemical toilet or a septic system that is approved by the appropriate state or county official.
6. All solid waste, except for overburden and subeconomic ore, will be removed from the site and taken to an approved landfill. No burial or burning of trash will be allowed in the area of operations.

7. Approval of this Plan of Operations will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under this Plan of Operations.

You have the right to appeal this decision to the Utah State Director, Bureau of Land Management, in accordance with 43 CFR 3809.4. If you exercise this right, your appeal should contain: 1) the name and mailing address of the appellant, 2) name(s) and serial number(s) of the mining claims, and 3) a statement of reasons and any arguments you wish to present, which would justify reversal of modification of the decision. This appeal must be filed in writing in this office within 30 days after the date of this decision. This decision will remain in effect during the appeal unless a written request for a stay is granted.

Should you have any questions regarding this decision, please feel free to call Rody Cox or me at (801) 743-6811.

Sincerely,

Dave Henderson
Area Manager
